Paris, 27 July 2005 – JCDecaux SA (Euronext Paris: DEC), the number one outdoor advertising company in Europe and the number two worldwide, announced today its revenues for the six months ended 30 June 2005, reporting a 5.5% increase to €833.7 million compared to the same period last year. Excluding acquisitions and the impact of foreign exchange, organic revenue growth was 5.1%.

In the second quarter, consolidated revenues grew by 5.0% to €454.0 million (+3.2% on an organic basis) compared to the same period last year. This growth in revenues is in line with the Company's previous comments and reflects a good performance in Street Furniture and the continued improvement in Transport.

In the second quarter, revenues increased by 4.5% to €243.0 million (+4.0% on an organic basis) compared to the same period last year. The Street Furniture market continued to be very robust in some European countries including Sweden and Finland, where double-digit revenue growth was reported, and in Spain and Germany where revenues grew in high single-digits for the second consecutive quarter. The UK and the Netherlands achieved a strong revenue performance, however, in France, revenue growth was flat, although core advertising revenues increased slightly.

The US produced strong revenue growth and Asia-Pacific continued to record double-digit revenue growth, with Korea, Japan and Thailand reporting the best performances.

Billboard revenues for the first half decreased by 0.3% to €214.4 million, reflecting tougher advertising conditions in the second quarter in our large European markets of France and the UK. Excluding acquisitions and the impact of foreign exchange, organic revenues decreased by 0.2% over the period.

In the second quarter, revenues decreased by 2.8% to €115.4 million (-3.2% on an organic basis). Market conditions were favorable in Ireland and Spain, which reported strong revenue growth over the period. However, revenues were down in Belgium, Austria, Italy and Portugal, against last year's very high comparators and the benefits of Euro 2004. Revenues were flat in France and down in the UK compared to the second quarter last year.

Transport revenues for the first half increased by 12.6% to €164.4 million. Excluding acquisitions and the impact of foreign exchange, organic revenues increased by 10.2% over the period.

In the second quarter, revenues increased by 17.9% to €95.6 million (+10.5% on an organic basis), with the recent acquisition of MediaNation making a first time contribution.

Double-digit organic revenue growth was achieved in many European countries including the UK, Spain, Norway, Germany and Austria. Similar revenue increases were reported in Hong Kong and Chile. However, as in Street Furniture and Billboard, business was more difficult in France, where revenues decreased over the period. Revenues were also lower in Portugal, which had reported record-high revenue figures in the second quarter of 2004, just before the Euro 2004.

Commenting on first half revenues, Jean-François Decaux, Chairman of the Board and co-Chief Executive Officer, said:

“As anticipated, revenue growth in the second quarter was lower than in the first, mainly due to weaker advertising conditions in France and in the Billboard market in the UK. Our good performance over the half year was driven by solid Street Furniture revenue growth and continued double-digit revenue improvement from our Transport division.

For 2005, we still expect to achieve organic revenue growth of around 4 %, with a slower profit growth rate at operating margin -former EBITDA- and EBIT levels, reflecting the slight first-half revenue decrease in France and the higher revenue proportion from the lower-margin Transport division.”
