(In thousands except for share and per share amounts)

2. Basis of Presentation

The accompanying unaudited interim consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission for quarterly reports on Form 10-Q. In the opinion of management, these financial statements include all adjustments necessary to present fairly the financial position, results of operations and cash flows as of June 30, 2008, and for all periods presented. The consolidated financial statements are prepared on the accrual basis of accounting. All adjustments made have been of a normal and recurring nature. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. The Company believes that the disclosures included are adequate and provide a fair presentation of interim period results. Interim financial statements are not necessarily indicative of the financial position or operating results for an entire year. It is suggested that these interim financial statements be read in conjunction with the audited financial statements and the notes thereto, together with management’s discussion and analysis of financial condition and results of operations, included in the Company’s Form 10-K for the fiscal year ended September 30, 2007, as filed with the Securities and Exchange Commission.

New Accounting Pronouncements

In March 2008, the Financial Accounting Standards Board (“FASB”) issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities – an amendment of FASB Statement No. 133* (“SFAS No. 161”). This Statement amends and expands the disclosure requirements of FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities*. SFAS No. 161 will become effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008 (our second quarter of fiscal year 2010). The Company is currently evaluating the potential impact, if any, of SFAS No. 161 on its consolidated financials statements.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interest in Consolidated Financial Statements-an amendment of ARB No. 51* (“SFAS No. 160”). This Statement establishes accounting and reporting standards for noncontrolling interests and transactions between the reporting party and such noncontrolling interests. This Statement is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008 (our fiscal year 2010). The Company is currently evaluating the potential impact, if any, of SFAS No. 160 on its consolidated financials statements.

In December 2007, the FASB issued SFAS No. 141 (revised 2007), *Business Combinations* (“SFAS No. 141(R)”). This Statement provides various accounting and disclosure requirements which are applicable prospectively to business combinations on or after the beginning of the first annual reporting period beginning on or after December 15, 2008 (our fiscal year 2010). The Company is currently evaluating the potential impact, if any, of SFAS No. 141(R) on its consolidated financials statements.

In June 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (“FIN 48”). FIN 48 prescribes detailed guidance for the financial statement recognition, measurement and disclosure of uncertain tax positions recognized in an enterprise’s financial statements in accordance with FASB Statement No. 109, *Accounting for Income Taxes*. Tax positions must meet a more-likely-than-not recognition threshold at the effective date to be recognized upon the adoption of FIN 48 and in subsequent periods. The Company adopted the provisions of FIN 48 on October 1, 2007. The cumulative effect of applying the provisions of this interpretation has been recorded as a decrease of \$7,036 to retained earnings, a decrease of \$3,963 to the income tax payable, a decrease of \$5,047 to deferred tax assets and an increase to the FIN 48 liability account of \$5,952 as of October 1, 2007. Refer to Note 9 for further discussion.

In June 2006, the FASB ratified Emerging Issues Task Force Issue 06-2, *Accounting for Sabbatical Leave and Other Similar Benefits Pursuant to FASB Statement No. 43, Accounting for Compensated Absences* (“EITF 06-2”). Under EITF 06-2, compensation costs associated with a sabbatical should be accrued over the requisite service period, assuming certain conditions are met. Previously, the Company expensed sabbatical costs as incurred. The Company adopted EITF 06-2 effective October 1, 2007, as required and accordingly, recorded a \$12,692 cumulative adjustment, net of tax, to decrease retained earnings on October 1, 2007. The annual impact to earnings of this accounting change is not expected to be significant.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

3. Goodwill and Other Intangible Assets, Net

Following is a summary of changes in the carrying amount of goodwill for the nine months ended June 30, 2008:

	Benefits		
	Outsourcing	Consulting	Total
Balance at September 30, 2007	\$ 48,380	\$270,934	\$319,314
Additions	—	51,592	51,592
Adjustment and reclassification	(19,790)	(15,055)	(34,845)

Balance at June 30, 2008	<u>\$ 29,600</u>	<u>\$305,504</u>	<u>\$335,104</u>

The additions and adjustments and reclassifications to goodwill in Consulting relate to the March and April 2008 acquisitions of Talent and Organizational Consulting businesses. The Company expects to finalize the opening balance sheet related to these acquisitions by the end of the second quarter and third quarter of fiscal 2009. The adjustment and reclassification from goodwill in Benefits Outsourcing during the nine months ended June 30, 2008 pertains to adjustments to the opening balance sheet related to the acquisition of a benefits management services provider which occurred in the fourth quarter of fiscal 2007. The Company expects to finalize the opening balance sheet related to this acquisition during the fourth quarter of the current year.

Intangible assets with definite useful lives are amortized over their estimated lives and are tested for impairment whenever indicators of impairment arise. The following is a summary of intangible assets at June 30, 2008 and September 30, 2007:

	June 30, 2008			September 30, 2007		
	Gross Carrying Amount	Accumulated Amortization	Net	Gross Carrying Amount	Accumulated Amortization	Net
Trademarks and tradenames	\$ 17,897	\$ 14,692	\$ 3,205	\$ 15,548	\$ 14,498	\$ 1,050

The increase in the gross carrying amount of core technology pertains to adjustments to the opening balance sheet related to the acquisition of a benefits management services provider which occurred in the fourth quarter of fiscal 2007. The increase in the gross carrying amount of customer relationships primarily pertains to adjustments to the opening balance sheet related to the March and April 2008 acquisitions of Talent and Organizational Consulting businesses and the acquisition of a benefits management services provider which occurred in the fourth quarter of fiscal 2007, partially offset by the divestiture of the Company's Cyborg business. Refer to Note 15 for additional information on divestitures.

Amortization expense related to definite useful life assets for the three and nine months ended June 30, 2008 and 2007 is as follows:

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2008	2007	2008	2007
Trademarks and tradenames	\$ 359	\$ 480	\$ 434	\$ 1,845

Total	<u>\$ 7,711</u>	<u>\$ 8,570</u>	<u>\$24,122</u>	<u>\$25,985</u>

4. Investments

At June 30, 2008, the Company had a total of \$127,598 in long-term investments, which are comprised of available-for-sale auction rate securities (“ARS”). While the underlying securities generally have long-term nominal maturities that exceed one year, the interest rates on these investments reset periodically in scheduled auctions (generally every 7-35 days). The Company has the opportunity to sell its investments during such periodic auctions subject to buyer availability.

During February 2008, issues in the global credit and capital markets led to failed auctions with respect to the Company’s ARS. During the second and third quarter, all of the Company’s outstanding ARS were subject to failed auctions. In the third quarter, \$6,500 of the Company’s ARS issues were called at par. At June 30, 2008, the Company’s ARS portfolio had a fair value of \$127,598 and a par value of \$132,900. The Company used a discounted cash flow model to determine the estimated fair value of its ARS at June 30, 2008. As a result, the Company determined that there was a reduction in the fair value of its ARS and recorded an unrealized loss of \$5,302 (\$3,235 net of tax) within other comprehensive income, a component of stockholders’ equity. The Company believes that the current lack of liquidity relating to its ARS investments will not materially affect its ability to fund its ongoing operations and growth initiatives.

As of June 30, 2008, approximately 97% of the Company’s ARS portfolio was comprised of federally insured student loan backed securities and 91% of the Company’s ARS portfolio was comprised of Aaa/AAA rated investments by Moody’s and S&P, respectively.

Because the impairments in fair values have been relatively short in duration and minor in amounts, and given the Company’s ability and intent to hold these investments until they fully recover in value (including until contractual maturity if necessary), the impairment is considered to be temporary. However, the Company will reassess this conclusion in future reporting periods based on several factors, including the success or failure of future auctions, possible failure of the investment to be redeemed, deterioration of the credit ratings of the investments, market risk and other factors. Such a reassessment may result in a conclusion that these investments are other-than-temporarily impaired. If it is determined that the fair value of these securities is other-than-temporarily impaired, the Company would record a loss in its consolidated statements of operations, which could materially adversely impact its results of operations and financial condition. As of March 31, 2008, the Company reclassified the entire ARS investment balance from short-term investments to long-term investments on the consolidated balance sheet reflecting the Company’s inability to determine when these investments in ARS will become liquid.

At September 30, 2007, the Company had a total of \$216,726 of ARS classified as short-term investments.

5. Severance Accrual

As of June 30, 2008, the Company has estimated its severance obligations to be \$14,202 in accordance with Statement of Financial Accounting Standards No. 112 (as Amended), “*Employers’ Accounting for Postemployment Benefits – an amendment of FASB Statements No. 5 and 43.*” The Company recorded charges of \$11,145 in the third quarter and made payments of \$109 related to those charges during the third quarter. The Company’s severance policy provides that the affected employees are entitled to receive an amount of severance pay that is based on the employee’s length of service, current employment status and level and benefits elections. For certain affected employees outside of the United States, the amount of severance is based upon the requirements of local regulations. The Company recorded adjustments of \$5,186 during the nine months ended June 30, 2008 primarily relating to higher than expected attrition and redeployment of associates to other positions.

The following table summarizes the activity in the severance accrual for the nine months ended June 30, 2008:

	<u>September 30, 2007</u>	<u>Additions</u>	<u>Payments</u>	<u>Adjustments</u>	<u>June 30, 2008</u>
Severance Accrual	\$ 10,661	\$16,405	\$(7,678)	\$ (5,186)	\$ 14,202

The additions and adjustments were recorded in compensation and related expenses within the consolidated statements of operations. The Company anticipates that the remaining accrual will be paid out by the second quarter of fiscal 2009.

6. Restructuring Activities

In conjunction with an ongoing review of the Company's leased real estate portfolio, during the third quarter of fiscal 2007, the Company announced its intention to consolidate facilities, and in some cases, exit certain properties. During the fourth quarter of fiscal 2007, the Company recorded expense of \$17,777 related to the exit and consolidation of certain facilities in both the U.S. and international locations. The charges consisted of \$21,649 for recognition of the fair value of lease vacancy obligations and lease termination charges. This was offset by the reversal of accrued rents of \$3,872. The net costs were recorded in other operating expense within the consolidated statements of operations and charged to the Benefits Outsourcing, HR BPO, and Consulting segments in the amounts of \$13,469, \$3,082, and \$1,226, respectively.

During the second quarter of fiscal 2008, the Company recorded expense of \$5,934 related to the exit and consolidation of a certain facility in the U.S. The charge consisted of \$5,570 for recognition of the fair values of lease vacancy obligations. Additionally, prepaid rents of \$364 were reversed. The net cost was recorded in other operating expense within the consolidated statements of operations and charged to the Benefits Outsourcing, HR BPO, and Consulting segments in the amounts of \$321, \$436, and \$4,016, respectively; \$1,161 was recorded to shared services and was not allocated to the segments.

During the third quarter of fiscal 2008, the Company recorded expense of \$894 related to the exit and consolidation of a certain facility in the Netherlands. The charge was for recognition of the fair values of lease vacancy obligations. The cost was recorded in other operating expense within the consolidated statements of operations and charged to the Benefits Outsourcing and Consulting segments in the amounts of \$599 and 295, respectively.

The following table summarizes the activity in the restructuring reserves for the nine months ended June 30, 2008:

	<u>September 30, 2007</u>	<u>Additions</u>	<u>Payments, net</u>	<u>Adjustments</u>	<u>June 30, 2008</u>
Real estate lease restructuring	\$ 20,887	\$ 6,464	\$ (11,418)	\$ 2,282	\$ 18,215

The Company recorded an adjustment of \$2,114 during the nine months ended June 30, 2008 relating to a revision in the estimated fair value of a lease vacancy obligation and such amount was reflected as a reduction in other operating expenses. Also included in the adjustments are the effect of foreign currency translation and the accretion of fair values.

The Company anticipates that the remaining accrual will be paid out by fiscal 2018.

In connection with the 2005 Exult merger, the Company formulated facility exit and severance strategies. The Company recorded \$13,721 of estimated liabilities for costs related to Exult facilities consolidation, the related impact on Exult outstanding real estate leases and Exult involuntary employee terminations and relocations. The accrued obligation was \$2,140 and \$3,132 as of June 30, 2008 and September 30, 2007, respectively. All severance amounts were paid out as of September 30, 2006. Lease termination costs are expected to be paid by October 2011.

7. Share-Based Compensation

The Company recorded pre-tax share-based compensation expense of \$15,817 and \$8,742 during the three months ended June 30, 2008 and 2007, respectively, and \$38,446 and \$31,439 during the nine months ended June 30, 2008 and 2007, respectively, related to the Company's nonqualified stock options, restricted stock, and restricted stock units. During the third quarter of fiscal 2007, the Company reduced share-based compensation expense by \$4,505 related to adjustments to the forfeiture rate used to record share-based compensation.

Under the Company's Global Stock and Incentive Compensation Plan (the "Plan"), which was adopted in fiscal 2002 and is administered by the Compensation and Leadership Committee (the "Committee") of the Company's Board of Directors, employees and directors may receive awards of nonqualified stock options, stock appreciation rights, restricted stock, restricted stock units, performance shares, performance share units, and cash-based awards; employees can also receive incentive stock options. The Plan was amended in January 2008 to increase the number of shares of Class A common stock authorized and reserved for issuance thereunder by 7,000,000 shares. As of June 30, 2008, only restricted stock, restricted stock units, performance share units and nonqualified stock options have been granted. A total of 32,000,000 shares of Class A common stock have been reserved for issuance under the Plan. As of June 30, 2008, there were 7,977,520 shares available for grant under the Plan.

Restricted Stock and Restricted Stock Units

The following table summarizes restricted stock and restricted stock units activity during the nine months ended June 30, 2008 and 2007:

	<u>June 30, 2008</u>		<u>June 30, 2007</u>

Stock Options

The following table summarizes stock option activity during the nine months ended June 30, 2008 and 2007:

	June 30, 2008		June 30, 2007	
	Options	Weighted Average Exercise Price	Options	Weighted Average Exercise Price

Exercisable options at end of period	5,368,844	\$ 24.00	6,753,175	\$ 23.80

The weighted average estimated fair value of employee stock options granted during the nine months ended June 30, 2008 and 2007 was \$12.82 and \$9.69 per share, respectively. These stock options were granted at exercise prices equal to the current fair market value of the underlying stock on the grant date.

The fair value used to determine compensation expense for options granted during the nine months ended June 30, 2008 and 2007 was estimated at the date of grant using a Black-Scholes option pricing model with the following weighted average assumptions:

	2008	2007
Expected volatility	26.61%	28.16%
Risk-free interest rate	3.84%	4.41%
Expected life	6.04	6.23
Dividend yield	0%	0%

The Company uses the “simplified method”, defined in SEC Staff Accounting Bulletin (“SAB”) No. 107, to determine the expected life assumption for all of its options. The Company continues to use the “simplified method”, as permitted by SAB No. 110, as it does not believe that it has sufficient historical exercise data to provide a reasonable basis upon which to estimate expected life due to the limited time its equity shares have been publicly traded.

8. Pension and Postretirement Benefit Plans

Through various acquisitions, the Company has defined benefit pension plans, the largest of which was closed to new entrants in 1998, providing retirement benefits to eligible employees. The Company also has other smaller defined benefit pension plans to provide benefits to eligible employees. It is the Company’s policy to fund in accordance with local practice and legislation. The Company also provides health benefits for retired U.S. and Canadian employees and certain dependents when the employee becomes eligible for these benefits by satisfying plan provisions, which include certain age and service requirements. The health benefit plans are contributory and contributions are reviewed annually and adjusted periodically.

The components of net periodic pension benefit costs for the three and nine months ended June 30, 2008 and 2007 include:

	Pension Benefits			
	Three Months Ended		Nine Months Ended	
	June 30,		June 30,	
	2008	2007	2008	2007
Service cost	\$ 2,984	\$ 3,108	\$ 9,640	\$ 9,225

Net periodic benefit cost	<u>\$ 2,784</u>	<u>\$ 3,194</u>	<u>\$ 9,025</u>	<u>\$ 9,456</u>

During the three and nine months ended June 30, 2008, contributions of \$4,888 and \$16,147, respectively, were made by the Company to the pension plans.

The components of net periodic health benefit costs for the three and nine months ended June 30, 2008 and 2007 include:

	Health Benefits			
	Three Months Ended		Nine Months Ended	
	June 30,		June 30,	
	2008	2007	2008	2007

Net periodic benefit cost	<u>\$ 307</u>	<u>\$ 254</u>	<u>\$ 920</u>	<u>\$ 762</u>

9. Income Taxes

The Company's consolidated effective income tax rate is 43.5% and 36.6% for the three months ended June 30, 2008 and 2007, respectively, and 41.6 % and 38.0% for the nine months ended June 30, 2008 and 2007, respectively. The Company reviews its expected annual effective income tax rates and makes changes on a quarterly basis as necessary based on certain factors such as changes in forecasted annual operating income; changes to the valuation allowance for net deferred tax assets; changes to actual or forecasted permanent book to tax differences; impacts from future tax settlements with state, federal or foreign tax authorities; or impacts from tax law changes. Each quarter, the Company identifies items which are not normal and recurring in nature and treats these as discrete events. The tax effect of discrete items is booked entirely in the quarter in which the discrete event occurs. Due to the volatility of these factors, the Company's consolidated effective income tax rate can change significantly on a quarterly basis. The higher effective tax rate in the current period compared to the comparable prior-year period is due to the mix of income across various jurisdictions and the effect of nonrecurring discrete items (including prior year return to provision adjustments and interest on FIN 48 liabilities) in the current period which increased the current period effective rate. The Company included interest and penalties of \$1,037 and \$1,879 for the three and nine months ended June 30, 2008, respectively, in the provision for income tax in the consolidated statement of operations.

As stated in Note 2, the Company adopted the provisions of FIN 48 on October 1, 2007. The cumulative effect of applying the provisions of this interpretation has been recorded as a decrease of \$7,036 to retained earnings, a decrease of \$3,963 to the income tax payable, a decrease of \$5,047 to the deferred tax assets and an increase to the FIN 48 liability account of \$5,952 as of October 1, 2007.

In conjunction with the adoption of FIN 48, uncertain tax positions have been classified as non-current income tax liabilities unless expected to be paid within one year. Income tax-related interest expense and income tax-related penalties have continued to be reported as a component of the provision for income tax in the consolidated statements of operations. As of June 30, 2008, the total amount of accrued income tax-related interest and penalties included in the consolidated balance sheets was \$14,385.

As of June 30, 2008, the Company was subject to examination in the U.S. federal tax jurisdiction for the 2004-2006 tax years. The Company was also subject to examination in various state and foreign jurisdictions for the 2004 and 2005 tax years, none of which were individually material. The Company has filed an appeal with the Internal Revenue Service (“IRS”) for the 2003 income tax examination. The Company believes that appropriate provisions for all outstanding issues have been made for all jurisdictions and all open years.

As of October 1, 2007, the date of adoption, the total amount of unrecognized tax benefits was \$74,604, of which \$71,876 would affect the effective tax rate, if recognized. If tax matters for 2003 are effectively settled with the IRS within the next 12 months, the total amounts of unrecognized tax benefits may decrease. Settlement could increase earnings up to \$21,600 based on current estimates. Audit outcomes and the timing of audit settlements are subject to significant uncertainty.

10. Earnings Per Share

Basic earnings per share (“EPS”) is calculated by dividing net income by the weighted average number of shares of common stock outstanding. Diluted EPS includes the components of basic EPS and also gives effect to dilutive common stock equivalents. Treasury stock is not considered outstanding for either basic or diluted EPS as weighted from the date the shares were placed into treasury. For purposes of calculating basic and diluted earnings per share, vested restricted stock awards are considered outstanding. Under the treasury stock method, diluted EPS reflects the potential dilution that could occur if securities or other instruments that are convertible into common stock were exercised or could result in the issuance of common stock. Potentially dilutive common stock equivalents include unvested restricted stock and restricted stock units, unexercised stock options and warrants that are “in-the-money” and outstanding convertible debt securities which would have a dilutive effect if converted from debt to common stock. Restricted stock awards generally vest 25 percent on each anniversary of the grant date and are not considered outstanding in basic earnings per share until the vesting date.

The following table presents computations of basic and diluted EPS in accordance with accounting principles generally accepted in the United States of America:

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2008	2007	2008	2007
Earnings per share – basic:				
Net income as reported	\$ 48,150	\$ 47,505	\$ 156,590	\$ 90,556

Earnings per share – basic	<u>\$ 0.50</u>	<u>\$ 0.44</u>	<u>\$ 1.57</u>	<u>\$ 0.83</u>
Earnings per share – diluted:

Net income for per share calculation	<u>\$ 48,737</u>	<u>\$ 48,092</u>	<u>\$ 158,351</u>	<u>\$ 90,556</u>
Weighted-average number of shares of common stock for basic	96,534,101	107,331,262	100,008,744	108,519,023
Incremental effect of dilutive common stock equivalents:				
Unvested restricted stock awards	1,624,550	1,458,291	1,323,143	1,511,458
Unexercised stock options	1,904,991	1,836,241	1,914,085	1,028,743
Convertible debt	1,870,748	1,870,748	1,870,748	—
Unexercised warrants	5,000	—	2,015	—
Weighted-average number of shares of common stock for diluted	<u>101,939,390</u>	<u>112,496,542</u>	<u>105,118,735</u>	<u>111,059,224</u>
Earnings per share – diluted	<u>\$ 0.48</u>	<u>\$ 0.43</u>	<u>\$ 1.51</u>	<u>\$ 0.82</u>

Debt securities convertible into 1,870,748 shares of Class A common stock were outstanding in the three and nine months ended June 30, 2008 and 2007, but the weighted-average convertible shares were not included in the computation of diluted earnings per share for the nine months ended June 30, 2007 because the effect of including the convertible debt securities would have been antidilutive. Warrants to sell 200,000 shares of Class A common stock were outstanding in the three and nine months ended June 30, 2008 and 2007, but the warrants were not included in the computation of diluted earnings per share for the three and nine months ended June 30, 2007 because the effect of including the warrants would have been antidilutive. Of the outstanding stock options as of June 30, 2008 and 2007, 10,000 and 63,169 weighted average shares for each quarter and 68,992 and 1,183,522 for each nine month period, respectively, were not included in the computation of diluted earnings per share because the effects of including the stock options would have been antidilutive.

11. Other Comprehensive Income, Net

The following table presents the after-tax components of the Company's other comprehensive income for the periods presented:

	Three Months Ended		Nine Months Ended

Total comprehensive income	<u>\$43,017</u>	<u>\$66,729</u>	<u>\$150,183</u>	<u>\$132,349</u>

At June 30, 2008 the Company recorded an unrealized loss of \$5,302 (\$3,235 net of tax) relating to its ARS. Refer to Note 4 for more information on ARS.

In December 2007, the Company initiated a foreign currency risk management program involving the use of non-deliverable forward foreign currency derivatives. Refer to Note 14 for more information on cash flow hedges.

12. Legal Proceedings

The Company is involved in disputes arising in the ordinary course of its business relating to outsourcing or consulting agreements, professional liability claims, vendors or service providers or employment claims. The Company is also routinely audited and subject to inquiries by governmental and regulatory agencies. The Company evaluates estimated losses under SFAS 5, *Accounting for Contingencies*. Management considers such factors as the probability of an unfavorable outcome and the ability to make a reasonable estimate of the amount of loss and records a provision with respect to a claim, suit, investigation or proceeding when it is probable that a liability has been incurred and the amount of the loss can reasonably be estimated. If the reasonable estimate of a probable loss is a range, and no amount within the range is a better estimate, the minimum amount in the range is accrued. If a loss is not probable or a probable loss cannot be reasonably estimated, no liability is recorded.

The Company is in active discussions with a number of its HR BPO clients to renegotiate the terms of their contracts. In December 2007, the Company reached settlement with one of these clients and incurred a charge of \$15 million, which was previously reserved. The Company paid this settlement during the first quarter.

In March 2008, the Company restructured an outsourcing contract. In conjunction with the restructuring, the Company will transition back to the client certain HR BPO services and extend the Benefits Outsourcing services portion of the contract. The Company recorded a net charge of \$15.9 million in the second quarter, in addition to a \$4 million charge recorded in the first quarter, mostly relating to transition costs. During the third quarter, the Company recorded an adjustment to these charges of \$1.9 million.

During the nine months ended June 30, 2008, the Company recorded additional net charges of approximately \$17 million related to ongoing disputes and settlements.

The Company is involved in a dispute with Philips Electronics UK Limited regarding a claim that the Company failed to properly value certain discretionary benefits in connection with actuarial services provided from 1995 to 2000. On August 1, 2008, Philips and Philips Pension Trustees Limited filed suit in the High Court of Justice, Chancery Division, in Birmingham England against Hewitt Associates Limited, a subsidiary of the Company, Bacon & Woodrow, a predecessor of Hewitt Associates Limited, and Roger Parkin, an employee of the Company. The suit claims damages of up to £103 million (\$204 million at August 1, 2008). The Company believes that it has valid defenses to Philip's assertions and intends to defend vigorously any claim. The Company has reserved \$5 million related to the dispute.

The Company does not believe that any unresolved dispute will have a material adverse effect on its financial condition or results of operation. However, litigation in general and the outcome of any matter, in particular, cannot be predicted with certainty. An unfavorable resolution of one or more pending matters could have a material adverse impact on the Company's results of operations for one or more reporting periods.

13. Segment Results

Under SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information*, the Company has determined that it has three reportable segments based on similarities among the operating units including homogeneity of services, service delivery methods, and use of technology. The three reportable segments are Benefits Outsourcing, HR BPO and Consulting.

The Company operates many of the administrative and support functions of its business through the use of centralized shared service operations to provide an economical and effective means of supporting the operating segments. These shared services include information technology services, human resources, management, corporate relations, finance, general counsel, real estate management, supplier management and other supporting services. Many of these costs, such as information technology services, human resources, real estate management, and other support services, are assigned to the business segments based on usage and consumption factors. Certain unallocated costs, within finance, general counsel, management, client and market leadership, and corporate relations, are not allocated to the business segments and remain in unallocated shared service costs.

The table below summarizes the Company's reportable segment results. Results for the prior year have been recast to be comparable to the current year presentation, primarily due to changes to the Company's current organizational structure.

14. Cash Flow Hedges

The Company's risk management strategy includes the use of derivative instruments to reduce the effects on its operating results and cash flows from fluctuations caused by volatility in currency exchange. The Company currently uses cash flow hedges to hedge forecasted transactions with its India operations. The Company enters into non-deliverable forward exchange contracts expiring within 12 months as hedges of anticipated cash flows denominated in Indian rupees. These contracts are entered into to protect against the risk that the eventual cash flows resulting from such transactions will be adversely affected by changes in exchange rates between the U.S. dollar and the Indian rupee.

All derivatives are recognized in the balance sheet at fair value. Fair values for the Company's derivative financial instruments are based on quoted market prices of comparable instruments or, if none are available, on pricing models or formulas using current assumptions. On the date the derivative contract is entered into, the Company determines whether the derivative contract should be designated as a hedge. Changes in the fair value of derivatives that are highly effective are recorded in other comprehensive income until the underlying transactions occur. Any realized gains or losses resulting from the cash flow hedges are recognized together with the hedged transaction in the consolidated statement of operations. At inception date, the Company formally documents all relationships between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking various hedging activities. This process includes matching all derivatives that are designated as cash flow hedges to specific forecasted transactions. The Company also formally assesses, both at the hedge's inception and on an ongoing basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in cash flows of hedged items. At June 30, 2008, all hedges were determined to be highly effective.

At June 30, 2008, the Company had net unrealized losses of \$6,605 on derivatives related to outstanding non-deliverable Indian rupee forward contracts maturing within 12 months, with a notional value of \$80,831. The Company recorded deferred tax assets of \$2,576 related to these derivatives. A total of \$4,029 of deferred losses, net of tax, on derivative instruments at June 30, 2008 were accumulated in other comprehensive income. The entire amount is expected to be reclassified into earnings from other comprehensive income during the next 12 months.

During the three and nine months ended June 30, 2008, the Company recorded net losses of \$1,382 and \$1,576, respectively, related to the settlement of forward contracts which were designated as cash flow hedges. These amounts have been classified together with the underlying hedged transactions in the consolidated statement of operations as compensation and related expenses.

15. Divestitures

On January 31, 2008, the Company sold the net assets of its Cyborg business ("Cyborg"). Cyborg was acquired in 2003 and provides licensed, processed, and hosted payroll software services. Its operations were included in the HR BPO segment. The divestiture is a part of the Company's continued efforts to streamline its HR outsourcing service offerings. The Company recorded a pre-tax gain of \$35,667 during the quarter ended March 31, 2008 as a result of the sale.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following information should be read in conjunction with the information contained in our consolidated financial statements and related notes presented earlier in this Quarterly Report on Form 10-Q. Please also refer to our consolidated financial statements and related notes and the information under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our Annual Report on Form 10-K filed with the Securities and Exchange Commission for additional information. In addition to historical information, this Quarterly Report on Form 10-Q may contain forward-looking statements that involve risks, uncertainties and assumptions, which could cause actual results to differ materially from management's expectations. Some of the risks and uncertainties are described below and in the "Note Regarding Forward-Looking Statements" which appears later in this section and in our Annual Report on Form 10-K, in Item 1A under the heading "Risk Factors."

We use the terms "Hewitt", "the Company", "we", "us", and "our" to refer to the business of Hewitt Associates, Inc. and its subsidiaries. All references to years, unless otherwise noted, refer to our fiscal years, which end on September 30. For example, a reference to "2008" or "fiscal 2008" means the twelve-month period that ends September 30, 2008. References to and adjustments for "foreign currency translation" are made within our discussion of results so that the financial results can be viewed without the impact of fluctuating foreign currency exchange rates used in reporting results in one currency (U.S. dollar) and helps facilitate a comparative view of business results. Financial results described within this section, except for share and per share information, are stated in thousands of U.S. dollars unless otherwise noted. Certain prior-period amounts have been reclassified to conform to the current-year presentation.

Overview

Third quarter net revenues, excluding third party supplier revenues and adjusting for the favorable effect of foreign currency translation of \$10.7 million and the net favorable effect of acquisitions/divestiture of \$1.4 million, increased 6.3% as compared to the prior-year period and was driven by growth across all segments, particularly in Consulting. Consulting revenue growth over the prior year, adjusting for the favorable effects of foreign currency translation of \$7.2 million and acquisitions of \$6.5 million, resulted principally from Retirement and Financial Management services as well as Talent and Organizational Consulting services. Benefits Outsourcing also reported higher revenue in the quarter, adjusting for the favorable impact of foreign currency translation of \$1.2 million and acquisitions of \$2.8 million, due to an increase in clients going live with contract services over the last twelve months and project work, partially offset by lost clients. Human Resource Business Process Outsourcing ("HR BPO") reported revenue growth in the quarter, excluding third party revenue and adjusting for the favorable impact of foreign currency translation of \$2.3 million and the impact of \$7.9 million from the sale of Cyborg, primarily due to an increase in the number of clients who went live with contract services over the last twelve months, partially offset by planned service reductions to certain clients and favorable one-time adjustments in the prior year.

Operating income increased \$8.8 million, or 12.2%, from the prior-year quarter. The increase was primarily due to a \$52.3 million or 7.0% increase in revenue from the prior-year quarter. Higher revenues were accompanied by \$43.5 million or a 6.5% increase in operating expenses from the prior-year quarter, mostly due to higher compensation and related expenses, resulting in higher net income.

At June 30, 2008, we had a total of \$127.6 million in long-term investments, which are comprised of available-for-sale auction rate securities ("ARS"). While the underlying securities generally have long-term nominal maturities that exceed one year, the interest rates on these investments reset periodically in scheduled auctions (generally every 7-35 days). We have the opportunity to sell these investments during such periodic auctions subject to buyer availability.

During February 2008, issues in the global credit and capital markets led to failed auctions with respect to our ARS. During the second and third quarter, all of our outstanding ARS were subject to failed auctions. In the third quarter, \$6.5 million of our ARS issues were called at par. At June 30, 2008, our ARS portfolio had a fair value of \$127.6 million and a par value of \$132.9 million. We used a discounted cash flow model to determine the estimated fair value of our ARS at June 30, 2008. As a result, we determined that there was a reduction in the fair value of our ARS and recorded an unrealized loss of \$5.3 million (\$3.2 million net of tax) within other comprehensive income, a component of stockholders' equity. We believe that the current lack of liquidity relating to our ARS investments will not materially affect our ability to fund our ongoing operations and growth initiatives. As of March 31, 2008, we reclassified the entire ARS investment balance from short-term investments to long-term investments on the consolidated balance sheet reflecting our inability to determine when these investments in ARS will become liquid. During the quarter, we continued to repurchase our outstanding common shares.

During the three months ended June 30, 2008, we repurchased approximately 0.3 million of our outstanding shares at an average price of \$38.39, for a total of approximately \$13.0 million. At June 30, 2008, we had approximately \$155 million remaining under our current \$750 million share repurchase authorization.

Consolidated Results of Operations

(1) Net revenues include \$8,409 and \$14,848 of third party supplier revenues for the three months ended June 30, 2008 and 2007, respectively. The third party supplier arrangements are generally marginally profitable. The related third party supplier expenses are included in other operating expenses.

Net Revenues

Net revenues, excluding third party supplier revenues and adjusting for the favorable effect of foreign currency translation of \$10.7 million and the net favorable effect of acquisitions/divestiture of \$1.4 million, increased 6.3% as compared to the prior year. The increase in net revenues was driven by revenue growth across all segments, with Consulting showing the largest increase. Consulting revenue growth over the prior year, adjusting for the favorable effects of foreign currency translation of \$7.2 million and acquisitions of \$6.5 million, resulted principally from Retirement and Financial Management services as well as Talent and Organizational Consulting services. Benefits Outsourcing also reported higher revenue in the quarter, adjusting for the favorable impact of foreign currency translation of \$1.2 million and acquisitions of \$2.8 million, due to an increase in clients going live with contract services over the last twelve months and project work, partially offset by lost clients. HR BPO reported revenue growth in the quarter, excluding third party revenue and adjusting for the favorable impact of foreign currency translation of \$2.3 million and the impact of \$7.9 million from the sale of Cyborg, primarily due to an increase in the number of clients who went live with contract services over the last twelve months, partially offset by planned service reductions to certain clients and favorable one-time adjustments in the prior year. Segment results are discussed in greater detail later in this section.

Compensation and Related Expenses

Compensation and related expenses increased 10.0%, or \$45.6 million. An increase in salary costs resulted from an increase in Consulting activities, including \$6.1 million in pretax severance charges related to the previously-announced Consulting segment organizational restructuring. Offsetting the increase attributed to the Consulting segment is lower severance expense, in addition to lower salary costs associated with global sourcing and other cost management in the outsourcing businesses.

Asset Impairment

The current quarter impairment charge of \$0.2 million resulted from the write-off of deferred set-up costs associated with certain client contracts. The prior-year quarter impairment charge of \$3.0 million primarily resulted from the write-off of capitalized software and deferred set-up costs associated with certain clients, in addition to the impairment of a customer relationship.

Other Operating Expenses

The decrease in other operating expense of \$5.5 million is primarily due to a reduction in third party supplier costs of \$6.4 million. Higher client service delivery charges, net of deferrals, of \$1.5 million primarily related to the increased number of clients who are live with ongoing services.

Selling, General and Administrative Expenses ("SG&A")

SG&A increased \$3.6 million, or 7.4%. In the third quarter of fiscal 2008, net charges related to ongoing disputes and settlements of \$4.1 million were recorded.

Total Other Income, Net

Total other income increased by \$1.4 million in the period due to higher other income (expense) net of \$6.3 million, which included higher gains on foreign currency transactions of \$3.3 million and gains of \$2.6 million related to the sale of two equity investments. This was partially offset by lower interest income of \$3.1 million, due to lower average investment balances and lower average interest rates as compared to the prior-year period, and higher interest expense of \$1.8 million, resulting from higher average debt balances as compared to the prior-year period.

Provision for Income Taxes

The Company's consolidated effective income tax rate is 43.5% for the three months ended June 30, 2008, as compared to 36.6% for the comparable prior-year period. The Company reviews its expected annual effective income tax rates and makes changes on a quarterly basis as necessary based on certain factors such as changes in forecasted annual operating income; changes to the valuation allowance for net deferred tax assets; changes to actual or forecasted permanent book to tax differences; impacts from future tax settlements with state, federal or foreign tax authorities; or impacts from tax law changes. Each quarter, the Company identifies items which are not normal and recurring in nature and treats these as discrete events. The tax effect of discrete items is booked entirely in the quarter in which the discrete event occurs. Due to the volatility of these factors, the Company's consolidated effective income tax rate can change significantly on a quarterly basis. The higher effective tax rate in the current period compared to the comparable prior-year period is due to the mix of income across various jurisdictions and the effect of nonrecurring discrete items (including prior year return to provision adjustments and interest on FIN 48 liabilities) in the current period.

The third party supplier arrangements are generally marginally profitable. The related third party supplier expenses are included in other operating expenses.

Net Revenues

Net revenues, excluding third party supplier revenues and adjusting for the favorable effects of foreign currency translation and net acquisitions/divestiture of \$42.5 million and \$3.6 million, respectively, increased 7.2% as compared to the prior year. The increase in net revenues was driven by revenue growth across all segments, with Consulting showing the largest increase to date. Consulting revenue growth, adjusting for the favorable effects of foreign currency translation of \$27.3 million and acquisitions of \$8.2 million, was due to growth in Retirement and Financial Management and Talent and Organizational Consulting services. HR BPO revenue growth, excluding third party revenue and adjusting for the favorable impact of foreign currency translation of \$10.3 million and the impact of \$13.2 million from the sale of Cyborg, was primarily due to an increase in the number of clients who went live with contract services over the last twelve months and growth in revenue from existing clients, including an increase in project work and transactional volume. Also contributing to the increase in HR BPO revenue was the benefit of \$14.1 million related to the resolution of two contract restructurings. Benefits Outsourcing also contributed to the revenue growth, adjusting for the favorable impact of foreign currency translation of \$5.0 million and acquisitions of \$8.6 million, primarily due to an increase in new client revenue growth and project work, partially offset by lost clients, and the benefit of \$9.0 million of revenue related to the resolution of two contract restructurings. Segment results are discussed in greater detail later in this section.

Compensation and Related Expenses

Compensation and related expenses increased 6.5%, or \$92.3 million. An increase in salary costs resulted from an increase in Consulting activities and higher performance-based compensation. Offsetting these increases were lower salary costs associated with global sourcing and other cost management efforts and a decrease in severance expense, related to prior restructuring actions.

Asset Impairment

The current year impairment charge of \$2.5 million primarily resulted from the write-off of deferred set-up costs and capitalized software associated with certain client contracts. The prior year impairment charge of \$6.6 million primarily resulted from the write-off of deferred set-up costs and capitalized software associated with certain clients, in addition to the impairment of a customer relationship.

Other Operating Expenses

The decrease in other operating expense of \$13.3 million is primarily due to a reduction in third party supplier costs of \$22.5 million, in addition to lower infrastructure costs. Offsetting the decrease is higher real estate related costs which includes \$6.8 million to exit and consolidate leased real estate during the second and third quarter and a \$2.1 million adjustment to the estimated fair value of a lease vacancy obligation recorded in the prior year. Also offsetting the decrease is higher client service delivery charges, net of deferrals, of \$9.2 million primarily related to the increased number of clients who are live with ongoing services and the impact of two previously announced contract restructurings.

SG&A

The increase in SG&A of \$13.7 million is primarily attributable to net charges related to ongoing disputes and settlements with various clients of approximately \$26 million in the current year. Additionally, \$3.4 million higher allowance for doubtful accounts, including a reduction in the prior year to the allowance for doubtful accounts of \$1.7 million, contributed to the increase. A \$13.9 million charge associated with the restructuring of one of our HR BPO contracts and a \$4.5 million charge associated with the resolution of a legal dispute with a vendor were both recorded in the same prior-year period.

Gain on Sale of Business

On January 31, 2008, we sold the Cyborg business. Cyborg was acquired in 2003 and provides licensed, processed, and hosted payroll software services. Its operations were included in the HR BPO segment. The divestiture is a part of the Company's continued efforts to streamline its HR outsourcing service offerings. The Company recorded a pre-tax gain of \$35.7 million during the quarter ended March 31, 2008 as a result of the sale.

Total Other Income, Net

Total other income increased by \$1.3 million in the period due to higher other income (expense) net of \$4.8 million, which included higher gains on foreign currency transactions of \$2.7 million and gains of \$2.6 million related to the sale of two equity investments. Lower interest expense of \$0.8 million, resulting from lower average debt balances as compared to the prior-year period also contributed to the increase. This was partially offset by lower interest income of \$4.4 million, due to lower average investment balances and lower average interest rates as compared to the prior-year period.

Provision for Income Taxes

The Company's consolidated effective income tax rate is 41.6% for the nine months ended June 30, 2008, as compared to 38.0% for the comparable prior-year period. The Company reviews its expected annual effective income tax rates and makes changes on a quarterly basis as necessary based on certain factors such as changes in forecasted annual operating income; changes to the valuation allowance for net deferred tax assets; changes to actual or forecasted permanent book to tax differences; impacts from future tax settlements with state, federal or foreign tax authorities; or impacts from tax law changes. Each quarter, the Company identifies items which are not normal and recurring in nature and treats these as discrete events. The tax effect of discrete items is booked entirely in the quarter in which the discrete event occurs. Due to the volatility of these factors, the Company's consolidated effective income tax rate can change significantly on a quarterly basis. The higher effective tax rate in the current period compared to the comparable prior-year period is due to the mix of income across various jurisdictions and the effect of nonrecurring discrete items (including prior year return to provision adjustments and interest on FIN 48 liabilities) in the current period.

Segment Results

Operating income before unallocated shared service costs is referred to as “segment income” throughout the discussion. Results for the prior year have been recast to be comparable to the current year presentation, primarily due to changes to the Company’s current organizational structure.

(1) HR BPO net revenues include \$8,409 and \$14,848 of third party supplier revenues for the three months ended June 30, 2008 and 2007, respectively. The third party supplier arrangements are generally marginally profitable. The related third party supplier expenses are included in other operating expenses.

Benefits Outsourcing

Benefits Outsourcing net revenue, adjusting for the favorable impact of foreign currency translation of \$1.2 million and acquisitions of \$2.8 million, increased 3.4%. The increase in revenue is primarily due to an increase in clients going live with contract services over the last twelve months and increased project work, partially offset by client losses.

Benefits Outsourcing operating income decreased 2.3% compared to the prior year. The decrease was due to higher compensation expense and client service delivery expenses related to certain large, complex clients that recently went live with ongoing services, increased litigation expenses, and higher performance-based compensation, partially offset by margins on increased revenue.

HR BPO

HR BPO net revenue, excluding third party revenue and adjusting for the favorable impact of foreign currency translation of \$2.3 million and the impact of \$7.9 million from the sale of Cyborg, increased 3.9%. The increase is primarily related to an increase in the number of clients who went live with contract services over the last twelve months, partially offset by planned service reductions to certain clients and favorable one-time adjustments in the prior year.

HR BPO operating loss decreased 56.4% compared to the prior-year period. The segment loss improved principally due to staffing leverage and infrastructure cost management efforts.

Consulting

Consulting net revenues, adjusting for the favorable effects of foreign currency translation of \$7.2 million and acquisitions of \$6.5 million, increased 12.0%. The majority of this growth resulted from increased demand in Europe and North America for Retirement and Financial Management consulting, in particular, driven by funding legislation and ongoing pension accounting changes. Also contributing to the revenue growth is increased demand for Talent and Organizational Consulting in Asia-Pacific as well as in Europe.

Segment income decreased 18.7% compared to the same prior-year. The decrease in segment income was due to higher compensation expense, including \$6.1 million in pretax severance charges related to the previously-announced Consulting segment organizational restructuring, that more than offset the revenue growth in the period.

Unallocated Shared Service Costs

Unallocated shared service costs are global expenses that are incurred on behalf of the entire Company and are not specific to a business segment. These costs include finance, legal, management and corporate relations and other related costs.

Unallocated cost increased \$2.5 million, or 9.6%. The increase was primarily the result of higher performance-based compensation expenses and legal fees in the current period and timing of favorable adjustments in the prior-year period, partially offset by lower outside consulting fees.

The third party supplier arrangements are generally marginally profitable. The related third party supplier expenses are included in other operating expenses.

Benefits Outsourcing

Benefits Outsourcing net revenue, adjusting for the favorable impact of foreign currency translation of \$5.0 million and acquisitions of \$8.6 million, increased 3.9%. The increase in revenue is primarily a result of an increase in new clients and project work, partially offset by lost clients as compared to the prior-year period and the benefit of \$9.0 million of revenue related to the resolution of two contract restructurings.

Benefits Outsourcing operating income increased 22.8% compared to the prior year. Growth was mostly due to an increase from the prior year in higher margin project work, a decrease in compensation expense associated with lower severance and lower salary costs related to global sourcing, and other infrastructure cost management efforts. This growth was partially offset by higher contractor costs and operating expense related to certain large, complex clients that went live with ongoing services, as well as higher performance-based compensation.

HR BPO

HR BPO net revenue, excluding third party revenue and adjusting for the favorable impact of foreign currency translation of \$10.3 million and the impact of \$13.2 million from the sale of Cyborg, increased 13.0%. The increase is primarily related to an increase in the number of clients who went live with contract services over the last twelve months and growth in revenue from existing clients, including an increase in project work and transactional volumes. Also contributing to the increase was the benefit of \$14.1 million related to the resolution of two contract restructurings.

HR BPO operating loss decreased 56.0% compared to the prior-year period. The decrease in the loss was primarily due to lower operating expense which included a gain on the sale of Cyborg of \$35.7 million. The segment loss also improved due to staffing leverage, infrastructure cost management efforts, and increased direct revenue. The current year includes net charges of \$13.0 million related to the previously announced restructurings of two HR BPO contracts as compared to \$13.9 million of charges recorded in the prior year related to the restructuring of a client contract. The current year also reflects charges related to ongoing disputes and settlements with various clients of \$6 million.

Consulting

Consulting net revenues, adjusting for the favorable effects of foreign currency translation of \$27.3 million and acquisitions of \$8.2 million, increased 10.6%. The majority of this growth resulted from increased demand in Europe and North America for Retirement and Financial Management consulting, in particular, driven by funding legislation and ongoing pension accounting changes. Also contributing to the revenue growth is increased demand for Talent and Organizational Consulting across all major geographies, as well as demand for health management services in the U.S.

Segment income decreased 5.8% compared to the same prior-year period. Revenue growth was offset by higher compensation expense driven by increased wages, retention and recruiting efforts from prior quarters, and severance, including \$6.1 million in pretax severance charges related to the previously-announced Consulting segment organizational restructuring. Also offsetting the increase is higher other operating expenses, mostly due to charges related to real estate restructurings.

Unallocated Shared Service Costs

Unallocated shared service costs are global expenses that are incurred on behalf of the entire Company and are not specific to a business segment. These costs include finance, legal, management and corporate relations and other related costs.

Unallocated cost increased \$7.2 million, or 11.0%, primarily due to the result of higher performance-based compensation expenses and legal fees in the current period and timing of favorable adjustments in the prior-year period, partially offset by lower costs due to severance expense incurred in the prior year related to restructuring actions and lower outside consulting costs.

Critical Accounting Policies and Estimates

For a description of our critical accounting policies and estimates, see our Annual Report on Form 10-K for the fiscal year ended September 30, 2007.

In June 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (“FIN 48”). FIN 48 prescribes detailed guidance for the financial statement recognition, measurement and disclosure of uncertain tax positions recognized in an enterprise’s financial statements in accordance with FASB Statement No. 109, *Accounting for Income Taxes*. Tax positions must meet a more-likely-than-not recognition threshold at the effective date to be recognized upon the adoption of FIN 48 and in subsequent periods. The Company adopted the provisions of FIN 48 on October 1, 2007. The cumulative effect of applying the provisions of this interpretation has been recorded as a decrease of \$7,036 to retained earnings, a decrease of \$3,963 to the income tax payable, a decrease of \$5,047 to deferred tax assets and an increase to the FIN 48 liability account of \$5,952 as of October 1, 2007. Refer to Note 9 for further discussion.

In June 2006, the FASB ratified Emerging Issues Task Force Issue 06-2, *Accounting for Sabbatical Leave and Other Similar Benefits Pursuant to FASB Statement No. 43, Accounting for Compensated Absences* (“EITF 06-2”). Under EITF 06-2, compensation costs associated with a sabbatical should be accrued over the requisite service period, assuming certain conditions are met. Previously, the Company expensed sabbatical costs as incurred. The Company adopted EITF 06-2 effective October 1, 2007, as required and accordingly, we recorded a \$12,692 cumulative adjustment, net of tax, to decrease retained earnings on October 1, 2007. The annual impact to earnings of this accounting change is not expected to be significant.

Liquidity and Capital Resources

We have historically funded our growth and working capital requirements with internally generated funds, credit facilities and term notes. We believe we have broad access to debt and equity capital markets.

Cash provided by operating activities	\$ 161,115	\$ 257,988
Cash used in investing activities	(5,608)	(45,875)
Cash used in financing activities	(261,523)	(111,437)
Effect of exchange rates on cash	2,481	7,346
Net (decrease) increase in cash and cash equivalents	(103,535)	108,022
Cash and cash equivalents at beginning of period	378,743	138,928
Cash and cash equivalents at end of period	<u>\$ 275,208</u>	<u>\$ 246,950</u>

Working capital, defined as current assets less current liabilities, was \$221 million and \$535 million at June 30, 2008 and September 30, 2007, respectively.

The decrease in cash provided by operating activities was primarily due to higher performance-based compensation paid in the current year for fiscal 2007 performance, higher tax payments, increased client receivables, and HR BPO contract settlements, partially offset by higher net income as compared to the prior-year period.

The decrease in cash used in investing activities was primarily due to higher proceeds from the sale of investments, utilized to fund the higher performance-based compensation and the Company’s share repurchase program, and cash received from the sale of Cyborg. Offsetting the increase is higher purchases of investments, acquisitions, and higher additions to property and equipment.

The increase in cash used in financing activities was primarily due to an increase in share repurchases relating to the Company's share repurchase program partially offset by an increase in short-term borrowings. The Company repurchased approximately 11 million of its outstanding shares at an average price of \$37.38, for a total of approximately \$411.3 million, during the current year. An increase in short-term borrowings was also used to finance the share repurchase program and fund acquisitions.

At June 30, 2008, the Company had a total of \$127.6 million in long-term investments, which are comprised of ARS. While the underlying securities generally have long-term nominal maturities that exceed one year, the interest rates on these investments reset periodically in scheduled auctions (generally every 7-35 days). The Company has the opportunity to sell its investments during such periodic auctions subject to buyer availability.

During February 2008, issues in the global credit and capital markets led to failed auctions with respect to the Company's ARS. During the second and third quarter, all of the Company's outstanding ARS were subject to failed auctions. In the third quarter, \$6.5 million of the Company's ARS issues were called at par. At June 30, 2008, the Company's ARS portfolio had a fair value of \$127.6 million and a par value of \$132.9 million. The Company used a discounted cash flow model to determine the estimated fair value of its ARS at June 30, 2008. As a result, the Company determined that there was a reduction in the fair value of its ARS and recorded an unrealized loss of \$5.3 million (\$3.2 million net of tax) within other comprehensive income, a component of stockholders' equity. The Company believes that the current lack of liquidity relating to its ARS investments will not materially affect its ability to fund its ongoing operations and growth initiatives.

As of June 30, 2008, approximately 97% of the Company's ARS portfolio was comprised of federally insured student loan backed securities and 91% of the Company's ARS portfolio was comprised of Aaa/AAA rated investments by Moody's and S&P, respectively.

Because the impairments in fair values have been relatively short in duration and minor in amounts, and given the Company's ability and intent to hold these investments until they fully recover in value (including until contractual maturity if necessary), the impairment is considered to be temporary. However, the Company will reassess this conclusion in future reporting periods based on several factors, including the success or failure of future auctions, possible failure of the investment to be redeemed, deterioration of the credit ratings of the investments, market risk and other factors. Such a reassessment may result in a conclusion that these investments are other-than-temporarily impaired. If it is determined that the fair value of these securities is other-than-temporarily impaired, the Company would record a loss in its consolidated statements of operations, which could materially adversely impact its results of operations and financial condition. As of March 31, 2008, the Company reclassified the entire ARS investment balance from short-term investments to long-term investments on the consolidated balance sheet reflecting the Company's inability to determine when its investments in ARS will become liquid.

At June 30, 2008, the Company had available credit facilities with domestic and foreign banks for various purposes. The amount of unused credit facilities as of June 30, 2008 was approximately \$124 million. During the second quarter of fiscal 2008 the Company borrowed \$90 million against one of these facilities and used the proceeds to increase our cash position to add financial flexibility. The interest rate on this borrowing is LIBOR plus 40 basis points.

We believe the cash on hand, together with funds from operations, other current assets, existing credit facilities and access to debt and equity capital markets will satisfy our expected working capital, contractual obligations, capital expenditures, and investment requirements for at least the next 12 months and the foreseeable future.

Commitments

Significant ongoing commitments consist primarily of leases, debt, purchase commitments and certain other long-term liabilities. For a summary and description of our ongoing commitments and contractual obligations, see our Annual Report on Form 10-K for the fiscal year ended September 30, 2007 and the "Commitments" section of the Liquidity and Capital Resources section of Management's Discussion and Analysis of Financial Condition and Results of Operations. There were no material changes in these commitments during the nine months ended June 30, 2008.

Note Regarding Forward-Looking Statements

This report contains forward-looking statements relating to our operations that are based on our current expectations, estimates and projections. Words such as “anticipates”, “believes”, “continues”, “estimates”, “expects”, “goal”, “intends”, “may”, “opportunity”, “plans”, “potential”, “projects”, “forecasts”, “should”, “will”, and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and involve risks, uncertainties, and assumptions that are difficult to predict. Forward-looking statements are based upon assumptions as to future events that may not prove to be accurate. Actual outcomes and results may differ materially from what is expressed or forecasted in these forward-looking statements. Actual results may differ from the forward-looking statements for many reasons. Important factors known to us that could cause such material differences are identified and discussed from time to time in our filings with the Securities and Exchange Commission, including those factors discussed in Part I, Item 1A, “Risk Factors” of our Annual Report on Form 10-K for the year ended September 30, 2007. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or for any other reason. Such important factors include:

- The outsourcing and consulting markets are highly competitive, and if we are not able to compete effectively our revenues and profit margins may be adversely affected.
- A significant or prolonged economic downturn could have a material adverse effect on our revenues and profit margin.
- The profitability of our engagements with clients may not meet our expectations due to unexpected costs, cost overruns, early contract terminations, unrealized assumptions used in our contract bidding process and the inability to maintain our prices.
- We might not be able to achieve the cost savings required to sustain and increase our profit margins.
- Our accounting for our long-term contracts requires using estimates and projections that may change over time. Such changes may have a significant or adverse effect on our reported results of operations or consolidated balance sheet.
- The loss of a significantly large client or several clients could have a material adverse effect on our revenues and profitability.
- We may have difficulty integrating or managing acquired businesses, which may harm our financial results or reputation in the marketplace.
- Our business will be negatively affected if we are not able to anticipate and keep pace with rapid changes in government regulations or if government regulations decrease the need for our services or increase our costs.
- If we are unable to satisfy regulatory requirements relating to internal controls over financial reporting, our business could suffer.
- Our business performance and growth plans will be negatively affected if we are not able to effectively apply technology in driving value for our clients through technology-based solutions or gain internal efficiencies through the effective application of technology and related tools.
- If our clients or third parties are not satisfied with our services, we may face damage to our professional reputation or legal liability.
- Improper disclosure of personal data could result in liability and harm our reputation.
- We depend on our employees; the inability to attract new talent or the loss of key employees could damage or result in the loss of client relationships and adversely affect our business.
- Our global operations and expansion strategy pose complex management, foreign currency, legal, tax and economic risks, which we may not adequately address.
- The demand for our services may not grow at rates we anticipate.
- If we fail to establish and maintain alliances for developing, marketing and delivering our services, our ability to increase our revenues and profitability may suffer.
- We rely on third parties to provide services and their failure to perform the service could do harm to our business.
- We have only a limited ability to protect the intellectual property rights that are important to our success, and we face the risk that our services or products may infringe upon the intellectual property rights of others.

- We rely heavily on our computing and communications infrastructure and the integrity of these systems in the delivery of services for our clients, and our operational performance and revenue growth depends, in part, on the reliability and functionality of this infrastructure as a means of delivering human resources services.
- Our quarterly revenues, operating results and profitability will vary from quarter to quarter, which may result in volatility of our stock price.
- There are significant limitations on the ability of any person or company to buy Hewitt without the approval of the Board of Directors, which may decrease the price of our Class A common stock.
- Section 203 of the Delaware General Corporation Law may delay, defer or prevent a change in control that our stockholders might consider to be in their best interest.
- We may not be able to liquidate our auction rate securities (“ARS”) at carrying value, which may result in an impairment of the fair value of these securities and may have an impact on our ability to fund our ongoing operations and growth initiatives. Refer to Note 4 of the consolidated financial statements for more information related to our auction rate securities.

You should carefully consider each cautionary factor and all of the other information in this report. We undertake no obligation to correct or update any forward-looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any future disclosure we make on related subjects in future reports to the Securities and Exchange Commission (“SEC”).

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company is exposed to market risk from changes in interest rates and foreign currency exchange rates. The Company has a substantial operation in India for the development and deployment of technology solutions as well as for client support activities. In December 2007, the Company initiated a foreign currency risk management program involving the use of foreign currency derivatives related to exposures in fluctuations in the Indian rupee and expects to hedge approximately 65% of future exposures. As of June 30, 2008, the Company was a party to foreign currency derivative instruments related to exposures in fluctuations in the Indian rupee for approximately 62% of forecasted transactions of approximately \$130 million for the next twelve months. A 10% change in the exchange rate on the related exposure will result in an increase or decrease of related expenses of approximately \$13 million. Consistent with the use of the derivatives to offset the effect of exchange rate fluctuations, such increases or decreases in expenses would be offset by corresponding gains or losses, respectively, of approximately \$8 million on settlement of the derivative instruments. For further information regarding our market risk, refer to our Annual Report on Form 10-K for the year ended September 30, 2007.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures.

Under the supervision and with the participation of our senior management, including our chief executive officer and chief financial officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), as of the end of the period covered by this quarterly report (the “Evaluation Date”). Based on this evaluation, our chief executive officer and chief financial officer concluded as of the Evaluation Date that our disclosure controls and procedures were effective such that the information relating to the Company, including consolidated subsidiaries, required to be disclosed in our SEC reports (i) is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and (ii) is accumulated and communicated to the Company’s management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting.

There has been no significant change in our internal control over financial reporting that occurred during the three months ended June 30, 2008 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. Legal Proceedings

The Company is involved in disputes arising in the ordinary course of its business relating to outsourcing or consulting agreements, professional liability claims, vendors or service providers or employment claims. We are also routinely audited and subject to inquiries by governmental and regulatory agencies. The Company evaluates estimated losses under SFAS 5, *Accounting for Contingencies*. Management considers such factors as the probability of an unfavorable outcome and the ability to make a reasonable estimate of the amount of loss and records a provision with respect to a claim, suit, investigation or proceeding when it is probable that a liability has been incurred and the amount of the loss can reasonably be estimated. If the reasonable estimate of a probable loss is a range, and no amount within the range is a better estimate, the minimum amount in the range is accrued. If a loss is not probable or a probable loss cannot be reasonably estimated, no liability is recorded.

The Company is in active discussions with a number of its HR BPO clients to renegotiate the terms of their contracts. In December 2007, the Company reached settlement with one of these clients and incurred a charge of \$15 million, which was previously reserved. The Company paid this settlement during the first quarter.

In March 2008, the Company restructured an outsourcing contract. In conjunction with the restructuring, the Company will transition back to the client certain HR BPO services and extend the Benefits Outsourcing services portion of the contract. The Company recorded a net charge of \$15.9 million in the second quarter, in addition to a \$4 million charge recorded in the first quarter, mostly relating to transition costs. During the third quarter, the Company recorded an adjustment to these charges of \$1.9 million.

During the nine months ended June 30, 2008, the Company recorded additional net charges of approximately \$17 million related to ongoing disputes and settlements.

The Company is involved in a dispute with Philips Electronics UK Limited regarding a claim that the Company failed to properly value certain discretionary benefits in connection with actuarial services provided from 1995 to 2000. On August 1, 2008, Philips and Philips Pension Trustees Limited filed suit in the High Court of Justice, Chancery Division, in Birmingham England against Hewitt Associates Limited, a subsidiary of the Company, Bacon & Woodrow, a predecessor of Hewitt Associates Limited, and Roger Parkin, an employee of the Company. The suit claims damages of up to £103 million (\$204 million at August 1, 2008). The Company believes that it has valid defenses to Philip's assertions and intends to defend vigorously any claim. The Company has reserved \$5 million related to the dispute.

The Company does not believe that any unresolved dispute will have a material adverse effect on its financial condition or results of operation. However, litigation in general and the outcome of any matter, in particular, cannot be predicted with certainty. An unfavorable resolution of one or more pending matters could have a material adverse impact on the Company's results of operations for one or more reporting periods.

For the purpose of all computations made under this Credit Agreement, the amount of a Guaranty in respect of any obligation shall be deemed to be equal to the maximum aggregate amount of such obligation at the time the amount of the Guaranty is being determined or, if the Guaranty is limited to less than the full amount of such obligation, the maximum aggregate potential liability under the terms of the Guaranty at the time the amount of the Guaranty is being determined.

1.8 For greater certainty of Section 5.12. Dear Vince:

We are delighted to extend an offer to you to join Hewitt Associates as Senior Vice President of Global Business Services and Technology. This letter confirms the terms of our offer:

- An annualized base salary of \$420,000 on a regular, full-time, exempt basis with a performance and pay review in December of 2008, and annually thereafter assuming strong individual performance;
- A one-time sign-on bonus of \$100,000, subject to withholding taxes and paid at the time of your first paycheck. Should you leave Hewitt of your own choice before 12 months of service, you will be required to repay a prorated amount of this bonus to Hewitt. For example, if you should leave at 6 months of employment, you would be asked to repay 50% or \$50,000 of the sign-on bonus;
- You will be eligible for a bonus target of 60% of your actual fiscal year base pay earnings. Any award payout will be based on your individual and financial results relative to goals established by you and your manager, and business financial goals. Bonus awards are based on contributions and results through our fiscal year end, September 30, and are currently planned to be paid in mid-December 2008. For fiscal 2008 we will guarantee a minimum annual bonus payout of \$65,000 for the partial fiscal year. You must be employed by Hewitt on the payout date to be eligible to receive an award;
- You will be receiving Hewitt's standard homeowner Relocation Program. The benefits under this policy include 2 pre-move, home-finding trips, packing, unpacking, and transportation of ordinary household goods; reasonable transportation, meals and lodging en route to your new location; 60 days of temporary housing; duplicate housing costs; family assistance; tax assistance; a supplemental allowance equal to one month's pay, up to a maximum of \$10,000; assistance in selling your home; home sale loss protection; assistance in purchasing a new home;

Mr. Vince Coppola

- A one-time sign-on equity grant of 10,000 Hewitt stock options. These options will vest over four years with the first 25% vesting on 9/30/2009 and 25% annually thereafter. This grant would be subject to you accepting this offer of employment and approval by the Board;
- A sign-on grant of 6,000 Performance Share Units (PSUs). The number of shares earned is adjusted up or down at the end of the one-year performance cycle based on Company performance against pretax operating income, direct revenue, turnover and employee engagement. The PSUs are paid in Restricted Stock Units upon completion of one-year performance period ("grant"). Beginning 9/30/08, one-third of the RSUs vest each year so that the grant is fully vested on 9/30/2010. This grant would be subject to you accepting this offer of employment and approval by the Board.
- Eligibility to participate in ongoing equity awards under our Global Stock Plan. Currently, grants are made in December of each year. Grant size is based on level in the organization, your role and individual performance. Eligibility and plan design is reviewed annually.
- Participation in Hewitt Associates' Financial Security Plans, including an annual company Retirement and Savings Plan contribution and a company 401(k) match;
- Eligibility for severance in accordance with our severance provisions in place at the time of such an event;
- Eligibility for coverage under our comprehensive benefits programs described in the enclosed benefits booklet.
- Company travel as outlined in our travel policy.

This role positions you as a leader in the company and a member of the Hewitt Leadership Group (HLG). As a member of the HLG, you will:

- Participate in our Executive Benefits Plan which consists of the following:
 - 27 days of vacation/personal time annually;
 - An additional five-week vacation splash after five years of service and every five years thereafter;

Mr. Vince Coppola

- A voluntary Deferral Plan for base pay and annual incentive; and
- A Defined Contribution Restoration Plan which provides for the company retirement contribution and company 401(k) match above any qualified limits.
- Be subject to Hewitt's stock ownership guidelines. These guidelines reinforce our long-standing principle of ownership by requiring a minimum level of stock holdings among individuals in leadership roles. You will have up to five years from your hire date to meet these guidelines;
- Be required to abide by Hewitt's non-compete agreement. Enclosed is a copy of Hewitt's Confidentiality Agreement for your review. Please call us if you have any questions about its meaning.

Subject to Board approval, you will participate in our Change-in Control Executive Severance Plan.

This offer is contingent upon Hewitt receiving completed and satisfactory background and reference checks, including our review of an investigative consumer report.

We recognize that you retain the option, as does Hewitt, of ending your employment with the company at any time, with or without notice and with or without cause. As such, your employment with Hewitt is at-will and neither this letter, nor any other oral or written representations may be considered a contract for any specific period of time.

Your first day of employment will be May 19, 2008. We will contact you with further details and logistics once you have accepted our offer. In addition, our head of Global Corporate Relations, Julie MacDonald, will be contacting you to discuss communication of your new role.

Vince, we look forward to a positive response. If there is any additional information you need to make your decision, please feel free to contact me.

Sincerely,

Hewitt Associates LLC
