CORPORATE GOVERNANCE HIGHLIGHTS

Investor confidence in public companies is essential to the functioning of the global economy. To enlist and sustain investor confidence in Diodes Incorporated, we provide public access to information about our corporate governance policies in an Investor section of our website at www.diodes.com. These policies provide a framework for the proper governance of our Company, consistent with government requirements and in the best interests of you, our Shareholders.

KEY INFORMATION ABOUT OUR CORPORATE GOVERNANCE POLICIES AND COMMITMENTS:

Majority of Board members and Board committee members are independent;

Board adopted Code of Business Conduct;

Board adopted Corporate Governance Guidelines;

Board committee charters clearly establish respective roles and responsibilities;

Board adopted a Code of Ethics for the Chief Executive Officer and all members of our finance department, including the principal financial/accounting officer;

Board and each Board Committee are required to conduct a self-evaluation of their performance at least annually that is supervised and reviewed by the Governance and Stockholder Relations Committee to determine whether Board and each Board Committee are functioning effectively;

Audit Committee established policies for auditor independence;

Audit Committee conducts an appropriate review of all related party transactions for potential conflict of interest situations on an ongoing basis and approves such transactions;

Audit Committee members meet regularly with internal and external auditors, without the presence of the Company's management;

Audit Committee and Company are committed to full compliance with the Foreign Corrupt Practices Act and the anti-bribery laws of the People's Republic of China;

Internal Audit Manager reports directly to Audit Committee;

Moss Adams, LLP, the Company's independent registered public accountant firm, reports directly to the Audit Committee, and any non-audit services performed do not interfere with their independence;

Through internal audit control functions, the Company monitors compliance with its global financial policies and practices over critical areas, including: internal controls, financial accounting and reporting, fiduciary accountability, and safeguarding of the Company's corporate assets;

A whistle-blower hotline has been established as a confidential means for employees to address issues to the Audit Committee regarding the Company's accounting, internal accounting controls and auditing practices;

Compensation Committee makes recommendations to the Board regarding compensation, benefits and incentive arrangements for officers;

Governance and Stockholder Relations Committee recommends director nominees to be selected by the Board;

Non-management directors each must hold stock with a value of at least two times the annual Board and Committee retainers combined. A newly elected director will have five years to reach the target ownership level;

Management directors each must hold the lesser of four times the director's salary or 125,000 Company shares;

Executive sessions, or meetings of independent directors without management present, are held regularly.

Our culture demands integrity and an unyielding commitment to strong internal practices and policies. We thank you for the confidence you have placed in us.

RIGHT— AT DIODES, IT'S NOT ONLY THE DIRECTION WE'RE GOING, IT'S HOW WE'RE  GETTING THERE. RIGHT IS OUR PIONEERING NEW PRODUCT STREAM, APPLICATION-SPECIFIC  PRODUCTS WITHIN THE BROAD DISCRETE AND ANALOG SEMICONDUCTOR MARKETS  THAT ARE EMPOWERING TODAY'S NEWEST TECHNOLOGIES. RIGHT IS OUR GLOBAL SALES CHANNEL, A WORLDWIDE  NETWORK OF DISTRIBUTORS AND SALES PROFESSIONALS THAT ARE SUPPORTED BY WORLD-CLASS ENGINEERS THE WORLD  OVER. RIGHT IS OUR INNOVATIVE MARKETING STRATEGY, PROVEN FORMULAS FOR GROWTH THAT HAVE EARNED DIODES THE DISTINCTION OF BEING NAMED AMONG "AMERICA'S 25 FASTEST-GROWING TECH COMPANIES" AND AMONG "AMERICA'S 200 BEST SMALL COMPANIES" BY FORBES, INC. BUT MOST OF ALL, AT DIODES, WE'RE RIGHT WITH OUR INVESTORS, GENERATING RECORD  REVENUES OF \$401 MILLION  AND RECORD NET INCOME OF \$60 MILLION IN FISCAL 2007. AND THAT'S RIGHT WHERE WE WANT TO BE—WITH THE RIGHT PRODUCTS, AT THE RIGHT TIME, IN THE RIGHT PLACE. **RIGHT.**

DEAR SHAREHOLDERS

I am pleased to report that 2007 was another successful year for Diodes Incorporated.

2007 IN REVIEW

2007 was another tremendous year during which we continued to execute our plans and initiatives both financially and operationally. Our history of success led to a number of significant financial achievements in 2007 that include:

- Record annual revenue of \$401.2 million, representing an increase of 17% from \$343.3 million in 2006
- Record gross profit of \$130.4 million, representing an increase of 15% from \$113.9 million in 2006
- Record adjusted net income of \$64.9 million, or \$1.50 per share, representing an increase of 22% from \$53.4 million, or \$1.26 per share, in 2006
- Record net income of \$59.7 million, representing an increase of 24% from \$48.1 million in 2006
- Record cash flow from operations of \$91 million, compared to \$72.1 million in 2006
- A strong balance sheet with \$380 million in cash and short-term investments up from \$340 million at the end of 2006
- And, shareholder equity of \$369.6 million grew 26% compared to \$294.2 million at the end of 2006

With these accomplishments, we have continued to significantly outperform the industry and drive increased value for our shareholders. Contributing to these record results and laying the foundation for our future growth were a number of business and operational accomplishments throughout the year, which include:

THE RIGHT PRODUCTS AT THE RIGHT TIME

Diodes continued to expand our product offerings with the goal of establishing the Company as a broad-based supplier within the discrete and analog semiconductor markets. Over the course of the year, we invested in research and development, resulting in the introduction of new products across multiple product families. We believe that a key to our success is that we offer the right products at the right time.

Notably, during the year we successfully integrated APD Semiconductor into our operations and began to leverage the technology we acquired, resulting in the introduction of our SBR[®] (Super Barrier Rectifier) line. Over 200 new products were launched in 2007 with more than 50 of these based on our SBR[®] technology. We expect continued growth from this product family throughout 2008 and beyond.

We also continued to make progress in our efforts to focus our analog business on mobility and portability in order to capitalize on these large and growing markets. Specifically, design activity for our Hall sensors in cell phones and notebooks continued to increase throughout the year, and we are very excited about opportunities in this segment.

Indicative of our success in developing and marketing a wide variety of new products and solutions, our sales of new products grew in each quarter throughout the year, reaching approximately 40 percent of revenue in the fourth quarter of 2007, up from approximately 33 percent at the end of 2006.

THE RIGHT BUSINESS STRATEGY

Our ability to manufacture our products in a cost effective and efficient manner is central to our business strategy of delivering consistent profitable growth. During the year, we successfully consolidated our analog manufacturing operations into our China facilities, resulting in greater efficiencies and reduced costs. As a result, we further increased capacity and produced 15.4 billion units in 2007, a significant increase from the 11.8 billion units produced in 2006. We invested to increase the capacity at our wafer fabrication facility to 60,000 wafers per month, including the planned expansion of a six-inch line to support our SBR[®] product family. We believe that our continued focus on manufacturing quality and efficiency serves as a key differentiator for the Company and will contribute to further opportunities for margin expansion during the coming year.

THE RIGHT STRATEGY FOR SUCCESS AND PROFITABLE GROWTH

Year 2007 represented our sixth consecutive year of revenue growth, and our fourth quarter performance continued our run of record revenues and profits in 12 out of the last 16 quarters. Our expectation is to continue that trend in 2008.

We remain confident that the Company's long-term history of execution and successful track record of management through multiple industry cycles will continue to produce profitable results for our shareholders.

In 2008, we will continue to execute our strategies for profitable growth that have proven successful for the Company in the past. We will further expand our market share of the high-volume, high-growth markets we serve through new product introductions and increased design win activities. We will also leverage our large existing customer base to further drive sales of new products. Additionally, we plan to grow our portfolio of standard function, application specific products by using innovative, cost effective packaging technology. In summary, we believe we are executing the right strategies to further drive the Company's continued success and profitable growth.

Also, as part of our growth strategy for the coming year, we are evaluating acquisition opportunities that we believe will be synergistic to our business by offering complementary technologies, expanded market channels and/or additional manufacturing capacity and efficiencies. As we have stated previously, acquisition targets must be accretive to earnings within 12 months in order to maximize value to our Company and our shareholders. Based on our successful experience integrating the APD and Anachip acquisitions, we have taken the right steps internally to improve operational efficiencies and ensure our ability to expedite the integration of any future acquisition. We expect to make further progress in this area and look forward to reporting developments to you.

IN CLOSING

I would like to thank our shareholders and customers for their continued confidence and support, as well as our employees for their hard work and dedication to our continued success. We believe we are in the right market at the right time with the right products, and we look forward to reporting continued success in 2008 and beyond.

Sincerely,

Dr. Keh-Shew Lu
President and Chief Executive Officer
