

**Certain Forward-Looking Statements.** This website contains certain forward-looking statements (as such term is defined in the Private Securities Litigation Reform Act of 1995) relating to the Company that are based on the beliefs of the Company's management. When used, the words "may," "will," "should," "expect," "intend," "estimate," "anticipate," "believe," "predict," "potential" or "continue" or similar expressions identify forward-looking statements. These statements are subject to certain risks and uncertainties. Such statements reflect the current views of the Company's management. The following factors, and others which are discussed in the Company's filings with the Securities and Exchange Commission, are among those that may cause actual results to differ materially from the forward-looking statements: changes in the home building industry, general economic conditions, interest rates, foreign currency exchange rates, changes in the availability of consumer credit, employment trends, levels of consumer confidence, consumer preferences, changes in raw material costs and availability, market acceptance of price increases, changes in national and regional trends in new housing starts, changes in weather conditions, the Company's ability to comply with certain financial covenants in loan documents governing its indebtedness, increases in levels of competition within its market, availability of alternative building products, increases in its level of indebtedness, increases in costs of environmental compliance, increase in capital expenditure requirements, potential conflict between Alside and Gentek distribution channels and shifts in market demand. More detailed information about these factors may be found in filings by the Company with the Securities and Exchange Commission, including its most recent annual report on Form 10-K. You may review these more detailed risk factors by reviewing our Form 10-K, which can be found at the SEC Filings portion of this website. Should one or more of these risks or uncertainties materialize, or should underlying assumptions or estimates prove incorrect, actual results may vary materially from those described herein as expected, intended, estimated, anticipated, believed or predicted. The Company undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
